

Remember November® PSA's

PSA: 30 seconds

The Beverly Fund Lung Cancer Foundation offers free teaching materials to educators in grades 5 through 12 to help educate youth on the dangers of tobacco and lung health. The Beverly Fund wants you to know that November is Lung Cancer Awareness Month. This November, get your classroom involved with free lesson plans and materials, visit beverlyfund.org/teach to find out how you can help against the #1 cancer killer in the world. (www.beverlyfund.org/teach.html) (415-894-2470)

PSA: 15 seconds

Since 1987 Lung Cancer remains the #1 cancer killer, killing more women than breast, colon, ovarian and pancreatic cancers combined. Find out how you can help and get involved. Visit www.beverlyfund.org for more information.

PSA: 10 seconds

The Beverly Fund Lung Cancer Foundation wants you to remember that November is lung cancer awareness month. Visit beverlyfund.org for more information.

About the Beverly Fund Lung Cancer Foundation

Incorporated since 2006, we serve the community by doing the following:

- Provide free radon test kits nationwide so that families can test their homes for the second leading cause of lung cancer;
- Provide free teaching materials to educators nationwide so that children can learn about lung cancer and the dangers of tobacco in a fun way;
- Provide up to date information for patients and caregivers on treatment options, insurance information and clinical trials;
- Continue our weekly soft pretzel delivery to the patients at Jefferson Cancer Clinic, and;
- Continue to raise awareness to health care professionals, the general public and legislative offices that lung cancer needs to be a priority and needs their voice.
